ALTERNATIVE LEGAL SERVICES

WHAT DOES YOUR IDEAL LEGAL DEPARTMENT LOOK LIKE?

As an Alternative Legal Services Provider, we help you unlock your legal department's potential.

We function as an **extension of in-house legal departments** to allow them to focus on strategic high-value work.

What does that mean? In a nutshell, we take on the work:

- » you don't have time to do;
- » you only need for a short time;
- » is not of critical or strategic importance;
- » when you don't have the right resources.

We are unique among leading ALSPs in focusing mostly on international work and managed services. We truly understand how multicultural teams work and excel at managing engagements that cover a vast number of jurisdictions and languages.

We have recently been ranked by Chambers as a leading ALSP for Contract Lifecycle Management for the third year in a row.

WHY IT WORKS

In-house lawyers often struggle to keep up with heavy workloads. When time is of the essence – and it always is – we step in to give you your time back.

It is high time in-house teams can focus on strategic legal work instead of getting stuck on inefficient processes or with low-value repetitive tasks.

We have the right resources to ensure you can take your department to the next level as a high-performing business unit.

By giving your team its time back, you create a positive work environment in which top legal talents can excel and create value for the business.
